2021 – 2025

SKILLS

Technical: HTML, CSS, JavaScript, Reactjs, Bootstrap, Tailwind CSS, Nodejs

Tools: GitHub, Visual Studio Code, npm, Figma, Chrome DevTools, React dev tools, Postman

CERTIFICATIONS

- Amazon AWS APAC Solutions – Dec'03 ([link](#))
- Accenture UK Developer Technologies – Dec'23 ([link](#))

EXPERIENCE

Nivss Heritage

Jabalpur, India

Web Developer

03/24 – 03/25

- Worked on building and updating responsive web pages using HTML, CSS, JavaScript, and Bootstrap to make the site look great on all devices.
- Teamed up with designers and backend developers in an Agile setup to roll out new features smoothly and on time.
- Helped fix bugs, clean up code, and improve the UI to solve real issues and make the site easier to use.
- Used React.js to create reusable components, which made the development process faster and more organized.

PROJECTS

Lazarev Agency Website Clone

[github](#)

[open live](#)

02/25 – Mar 2025

- Recreated the [Lazarev.agency](#) website using HTML, CSS, and JavaScript, closely matching its original design and animations.
- Focused on building clean layouts and smooth transitions to improve my eye for detail and frontend styling.
- Prioritized pixel-perfect desktop design and smooth interactions to sharpen UI development and animation skills.

Worktrack : Employee Management App

[github](#)

[open live](#)

Feb 2025 – Mar 2025

- Built a simple and user-friendly employee management system with role-based dashboards using React.js, Tailwind CSS, Daisy UI, and local Storage.
- Enabled task assignment with deadlines for admins and accept/reject/status update functionality for employees.
- Implemented real-time task counters and live status updates to keep users organized and informed.
- Login is restricted to pre-registered Admin and Employee IDs; credentials are provided in the README file.

Time Capsule Website

[github](#)

[open live](#)

04/24 – 05/24

React.js | Tailwind CSS | Framer Motion

- Developed a scrapbook-style **Time Capsule website** using **React** and **Framer Motion** to visually capture and animate personal memories.
- Designed smooth scroll and fade-in animations to create a nostalgic, story-driven browsing experience.
- Built a fully responsive layout with **Tailwind CSS**, optimized for both desktop and mobile screens.
